A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of the common liquid arron. of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moi-sten the scalp and rub it in gently

when retring, declinate to with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

NEW YORK, February 2.—There has been considerable informal discussion here among local bakers for some days past regarding the advisability of raising the price of bread as a result of dearer wheat and flour. Leading bakers, in statements given to the press ferences to determine upon a course of today, say that a rise in the price of the ordinary five-cent loaf of white It is figured here that if the rise in price goes into effect it will mean that the people of New York will begin paying what would amount to millions of dollars a year more for their bread.
